WORKSHOP DESCRIPTION

In this workshop, you will learn about the needs of children and about multiple parenting strategies to answer their needs. The focus of the workshop is the successful integration of the knowledge acquired into your daily parenting. Therefore, throughout the workshop, you will work in small teams to integrate two discussed parenting strategies in your daily routines.

This workshop is for any parent who desires to better understand their child, become aware of diverse parenting strategies, have support in applying parenting strategies at home or connect with other parents.

You can expect to participate in a highly-interactive learning experience, share your parenting struggles and actively listen to what others share, interact closely and cooperate with other parents in your group, do work outside of the in-class workshop time and integrate two new parenting strategies in your daily routine.

ADDITIONAL INFORMATION

- Flexible payment options.
- Receipts available for income tax or insurance purposes.
- Snacks and drinks will be provided.
